

# Selection of Recent Conference Presentations

## Australian Pain Society ASM, Hobart, March 2014

### Topical sessions:

Champion, G.D. (Chair). Teng, A., Bott, A. Stehlik, R. Restless legs syndrome (RLS) and its remarkable association with pain.

Goodison-Farnsworth, M. (Chair), Cook, K. Haynes, N & McCormick, M. Innovative delivery of paediatric chronic pain management programs.

Jaaniste, T. (Chair & presenter), Chambers C. & West C. Pain: Familial involvement and impact.

### Free paper (oral) presentations:

Bott, A. Anxious depression: heritability and associations with the common pain disorders of childhood, restless legs syndrome and iron deficiency.

Champion, D. Parent-reported iron deficiency: heritability and associations with common pain disorders of childhood.

McCormick, M. Somatosensory testing in children and adolescents with chronic pain.

## International Symposium on Pediatric Pain, Stockholm, June 2013

### Topical sessions:

von Baeyer CL, Vo H & Schiavenato. Self-report of pain intensity in children: how young is too young? <http://www.ispp2013.org/uploads/files/CarlvonBaeyer.pdf>

Champion D (Chair and presenter), Mikkelsen M, Ståhl M. Heritability of neck, back and other common functional pain disorders.  
[http://www.ispp2013.org/uploads/files/David\\_Champion\\_Common%20pain%20disorders%20of%20childhood%20%28abbreviated%29.pdf](http://www.ispp2013.org/uploads/files/David_Champion_Common%20pain%20disorders%20of%20childhood%20%28abbreviated%29.pdf)

### Posters:

Kofman R, Chapman C, Champion D, Jaaniste T, Germs J, Chan A, Barton A, Hopper J. One month current prevalence of regional pain in adolescents: heritability and related comorbidities: a twin study.

Champion D, Kofman R, Chapman C, Jaaniste T, von Baeyer CL, Hopper J, Berkovic S, Chan A, Barton A. Paediatric restless legs syndrome is associated with multiple functional

# Selection of Recent Conference Presentations

pain syndromes in childhood: a twin family case control study.

Crawford M, Champion D, Chapman C, Lee P, Wong MW, Jaaniste T, Hopper J, Berkovic S. Growing pains: genetic influence and associations including restless legs syndrome.

Champion D, Chapman C, Lighthart L, Gunalan S, Jaaniste T, Qiu W, Hopper J, Berkovic S, Andrews I. Paediatric migraine: twin family case-control study of heritability and associations.

Barton A, Chapman C, Champion D, Lemberg A, Chan A, Jaaniste T, Hopper J. Paediatric recurrent abdominal pain: twin family case-control study of heritability and associations.

Jia N, Lang T, Jaaniste T, Anderson D, Chapman C, Png D, Champion D. Parental impact on children with chronic pain: the significant of parental beliefs and behaviours.

## **Australian Pain Society ASM, Canberra, March 2013**

### **Topical sessions:**

Jaaniste T (Chair & presenter), Crombez G & Berryman C. Pay attention: Pay attention! Why we focus on what we do and why it hurts.

### **Free paper (oral) presentations:**

Barton A, Chapman C, Champion D, Lemberg A, Chan A, Jaaniste T, Hopper J. Paediatric recurrent abdominal pain: twin family case-control study of heritability and association.

Chan A, Chapman C, Champion D, Barton A, Jaaniste T, Ferreira P, Henschke N, Hopper J. A twin family case-control study on paediatric non-specific low back pain: investigating heritability and comorbidities.

Jia N, Lang T, Jaaniste T, Anderson D, Chapman C, Png D, Champion D. Parental impact on children with chronic pain: how are parental beliefs reflected by parental behaviours within a cognitive behavioural framework?

### **Rapid presentation & poster:**

Lang T. Provider approaches to chronic and recurrent pain in paediatric outpatients.

### **Posters:**

Chapman C, Kofman R, Champion D, Jaaniste T, Chan A, Barton A, Hopper J, Berkovic S. Paediatric restless legs syndrome is associated with multiple functional pain syndromes in childhood: a twin family case control study.

# Selection of Recent Conference Presentations

**Faculty of Pain Medicine, Australian and New Zealand College of Anaesthetists ASM, Melbourne, May 2013**

**Free paper presentation:**

Champion D. Genetic influences and associations of common idiopathic/ functional pain syndromes of childhood: evidence from twin family case-control studies. (Awarded Prize for Best Free Paper) <http://www.fpm.anzca.edu.au/about-fpm/pdfs/3-AProf-David-Champion%20-%20Best%20Free%20Paper.docx>

**Australian Rheumatology Annual Scientific Meeting, Perth, May 2013**

**Invited presentation**

Champion D. The common pain disorders of childhood.

**Poster presentation**

Champion D, Chapman C, Jaaniste T, Chan A, Kofman R, Germs J, Hopper J. Twin family case-control study on adolescent non-specific low back pain: investigating heritability and comorbidities.
