

**Continuing professional development learning plan
Psychology Board of Australia
Children's Court Clinic**

Plan to commence on: Month _____ Year _____

Each year a psychologist or other clinician should review their practice, identifying areas of need for the following year. These goals should form part of a continuous improvement cycle to consolidate and add to knowledge, skills and competency in their clinical field. This review may be undertaken in the context of peer consultation.

	Area of need 1	Area of need 2	Area of need 3	Area of need 4	Area of need 5	Area of need 6
Learning needs identified	Child development and psychopathology including clinical applications of attachment theory	Adult psychopathology and assessment	Parenting capacity assessment	Expert witness and provision of evidence in court	Clinical report writing	Ethical and professional issues
Type of activities proposed to meet this need (peer consultation, seminar etc.)	Seminars, reading, group supervision, professional development days	Seminars, reading, group supervision, professional development days	Seminars, reading, group supervision, professional development days	Seminars, reading, group supervision, professional development days	Seminars, reading, group supervision, professional development days, consultation	Seminars, reading, group supervision, professional development days, consultation
Dates of proposed activities (weekly/monthly/specified dates if known) Note: these dates can be adjusted	<ul style="list-style-type: none"> Professional Development Days October 29 2010, April 2011 Monthly group peer supervision Consultation as needed 					
Outcomes anticipated	Improved assessment skills	Improved assessment skills	Improved assessment skills	Improved court evidence	Improved reports	Improved ethical practice

Towards the end of the year, review the progress and success or failure to meet these needs. In addition, evaluate all the completed CPD undertaken (even if it was not related to these needs) and reflect upon future needs and goals.

Review Date:

Outcomes achieved	Area of need 1	Area of need 2	Area of need 3	Area of need 4	Area of need 5	Area of need 6
	Child development and psychopathology including clinical applications of attachment theory	Adult psychopathology and assessment	Parenting capacity assessment	Expert witness and provision of evidence in court	Clinical report writing	Ethical and professional issues
